

- Ivy
- Ficus
- Philodendrons
- Spider plants
- Peace lilies
- Ferns
- Chrysanthemums
- Palms

These plants above have many species in each of the families. The size of the space, lighting, etc. will be things to consider before selecting a specific plant. Not all plants will require the same lighting or watering either. Green Fingers can assist with any plant selection for your home or office, depending on your budget and decor. *Happy Planting!!* The Plant Lady
